

DELLTechnologies

Reliable productivity, built to last.

 Dell Pro 3 14/16

P314265
P316265

Powered by AMD Ryzen™ Pro AI Processors

Lighter and thinner design

Built from durable, lightweight materials, the 14" model starts at just 2.95 lbs, making it the lightest and thinnest commercial notebook in its class¹ while staying clean, sleek, and easy to carry.

Sleek profile, smoother finish

The new metallic topcoat delivers a smoother, scratch-resistant finish that stays professional over time, while the tapered profile feels slimmer and looks great from every angle.

Larger touchpad

Enjoy more room to navigate with smoother, more precise scrolling and gestures. The touchpad is 17% bigger on the 14" and 9% bigger on the 16".²

Service-friendly design

Keep your PC up and running longer with a design that's easier to service, featuring modular USB-C ports, a separate I/O board, a screw-mounted keyboard, and a customer-replaceable battery.

Commercial-grade durability

Dell Pro devices are tested to meet MIL-STD tests and then pushed even further with additional durability checks. They're engineered to withstand real-life wear and tear, including drops, everyday spills, high heat and humidity, the weight of being carried in a bag, and repeated stress on hinges and USB-C ports—so your team stays productive anywhere.

Quantum Resilience, Built In

Stay protected in the post-quantum era with the world's most secure commercial PCs³. Quantum-resistant BIOS verification, signing updates and embedded controller help protect Dell Pro devices against firmware attacks and future cryptographic threats.

Brighter displays

See your work clearly in more environments with bright, vibrant displays up to 400 or 500 nits, so content stays sharp whether you're at your desk or on the go.

Advanced cameras

Look your best on video calls with a choice of HD, FHD RGB (with HDR), and FHD+IR (with HDR) camera options.

Clear audio

Hear and be heard clearly with quality speakers and dual noise-cancelling microphones that help cut through background noise on your calls.

Powered by AMD Ryzen™ AI Processors

Unlock powerful on-device AI with fast performance and power efficiency, plus Copilot+ PC options.

AMD DASH and AIM-T on AMD PRO

processors further give IT teams the ability to manage devices remotely, even when the system is powered off.

Long-lasting battery life

Stay productive wherever you are with a long-lasting 70Whr battery that helps you get more done between charges. And when you do need to plug in, ExpressCharge³ quickly boosts your battery so you can get back to work without a long wait.

Fast, reliable connections

Stay connected almost anywhere with advanced Wi-Fi 7 and optional 4G, so, you can enjoy fast, reliable internet whether you're in the office or on the go.

Flexible ports for every setup

Connect and charge with ease using two Thunderbolt™ 4 ports that deliver fast data transfer, support for multiple displays, and flexible docking in a single cable.

Quieter cooling

Get up to 31% quieter cooling⁴ with a fan design that helps your laptop stay whisper-quiet, even when you're tackling demanding tasks.

Smarter performance starts with AI PCs designed for your workforce

Why AI PCs matter

AI helps your workforce work smarter and more efficiently *when the PC is built for it.*

1 Boost productivity with on-device AI for everyday tasks like meeting summaries and content creation.

2 Empower IT with devices that are easier to standardize, deploy, and manage.

3 Maximize value with devices that balance performance, security, and cost that is designed for your workforce.

Our scalable portfolio of Dell AI PCs

fuses CPU, GPU, and NPU power to deliver ultra-responsive performance—whether you're in a video call, creating content, juggling multiple tasks, or handling sensitive workflows.

One strategic partner for the entire modern workplace

Comprehensive, innovative portfolio

We offer the most scalable, mainstream business laptops⁶, are #1 in monitors for 11 years⁷, and remain the #1 workstation globally⁸.

World's most secure and manageable commercial PCs⁹

We deliver embedded security with multi-layered protection from device to cloud, as well as streamlined device management across PCs and peripherals.

Unmatched global services

We deliver 95% customer satisfaction¹⁰, save an average of \$873 per PC¹¹, and reduce downtime by 75%¹².

Designed with circularity in mind

Material innovation

Designed with a variety of materials like recycled plastic, bio-based plastic, recycled steel, and recycled cobalt.¹³

These notebooks may ship with an adapter designed with 95% recycled plastic in the case, 98% recycled aluminum in the thermal shield and 50% recycled copper in the cable.¹⁴

Packaging with purpose

These devices ships in packaging made from 100% recycled or renewable materials, with multipack options for easier unboxing and reduced transportation and packaging waste.¹⁵

Retire responsibly and power your business transformation

Turn legacy IT into upfront savings or cash back and upgrade seamlessly with secure and responsible IT asset retirement.

[Learn More >](#)

Modular and serviceable design

As the first PC manufacturer to introduce modular USB-C ports in a commercial PC¹⁶, the Dell Pro 3 notebooks are designed for streamlined serviceability with modular components like a USB-C port, mainboard and customer-replaceable batteries. These innovations simplify repairs, reduce unnecessary touchpoints, and help minimize e-waste.

[Access Parts & Upgrades >](#)

Excellence in environmental standards

These products are certified ENERGY STAR, registered EPEAT Gold with Climate+ and carries the TCO Certified designation, meaning they meet the best-in-class standards for energy use and repair.¹⁷

Up-level your PC experience with Dell Displays and Accessories

Fuel your productivity with a complete Dell Ecosystem that is designed and tested to seamlessly integrate with your Dell Pro 3 Laptop.

Simplify IT

Our most secure¹ and most manageable² commercial PCs make IT management a breeze

SECURITY

Improve fleet-wide security with multiple layers of defense.

Reduce the attack surface and enhance long-term cyber resilience with [Dell Trusted Workspace >](#)

Be secure from first boot with enhanced supply chain assurance through Dell SafeSupply Chain.

Reduce exposure to classical and quantum threats with deep, BIOS-level visibility via Dell SafeBIOS and Dell Trusted Device App.

Store credentials in hardware away from malware that looks to steal them with Dell SafeID.

Layer on advanced threat protection from our partner ecosystem: CrowdStrike • Absolute • Halcyon

Shrink the IT-security gap with integrated hardware and software defenses.

[Learn More >](#)

MANAGEABILITY

Best-in-class PCs and peripherals management – only from Dell.

With Dell Management Portal, you can manage Dell PCs, over the cloud, in conjunction with Microsoft Intune. [Dell Management Portal >](#)

And with Dell Device Management Console, you can save time with centralized and secure peripherals management.

[Dell Device Management Console >](#)

Update and secure your fleet of Dell devices, with one application – Dell Client Device Manager.

Dell Trusted Update Experience makes it simple to update endpoints with the latest BIOS and driver versions. Dell is the first Top 5 PC vendor to:

Publish³ a device drivers and downloads release schedule:

IT Admins can deploy fleet-wide device updates on a predictable timeline.

[Learn More >](#)

Dell has the industry's first:⁴

Partner Portal accessible in Microsoft Intune, with fleet-wide BIOS password access capability and Enterprise application access and publication capabilities

Binary Large Object (BLOB) package-based solution, for endpoint BIOS settings configuration, using Microsoft Intune

Simplify PC refresh with Dell Services

Transform workplace technology into a competitive advantage with solutions that empower IT, boost workforce productivity, and provide the agility to scale confidently. With proven expertise, AI-powered automation, and flexible financial models, we deliver measurable outcomes—freeing IT for innovation and helping organizations thrive through any challenge.

Subscribe to PCs and services¹

Fully customizable monthly subscription that can include PCs, peripherals, software and services with no upfront investment.

APEX PC as a Service makes it easy to refresh to the latest PCs and seamlessly deploy, secure, manage, support and help with the retirement of devices.

[Subscribe to PCs and services >](#)

Deploy PCs with ease

PC refresh starts with getting new devices in the hands of your end-users. DellProDeploy Suite for PCs streamlines operations and increases productivity with configured PCs that are ready to use on day one with dynamic cloud-based provisioning and imaging.

When transitioning from old to new technology, ProDeploy Plus includes the ability to securely erase sensitive end-user data with sophisticated tools to sanitize devices and includes Asset Recovery Services for responsible retirement.

[Deploy PCs with ease >](#)

Securely retire your devices

Let Dell help you securely and responsibly retire your old IT equipment — regardless of brand — to allow for a seamless transition from old to new technology, while protecting both your business and the planet.

[Securely retire your devices >](#)

Simplify fleet management

The Dell Lifecycle Hub Suite (LCH) eases complexity in managing an organization's entire device fleet. It combines warehousing and inventory management with configuration services, repairs, returns and asset recovery into one solution that delivers a ready-to-work experience for end users with devices preconfigured to user personas. This frees up IT resources to focus on business priorities and maximizes end-user device utilization over the full PC lifecycle.

[Watch Video >](#)

Maximize uptime with intelligent, automated support

Dell ProSupport Suite for PCs is more than a 24/7 break-fix solution, it's a comprehensive set of tools that automate and optimize your environment with little to no human intervention or end-user disruption. IT teams can leverage telemetry-driven insights to make targeted updates, all controlled from a single dashboard. And with ProSupport Plus, you gain access to a robust library of Dell-authored scripts that automate tasks and resolve fleetwide issues at scale, minimizing downtime and maintaining peak system performance.

[Maximize uptime with intelligent, automated support >](#)

Reliability you can trust

We engineer our devices with pro-grade durability that goes above and beyond MIL-STD testing and focuses on building products for real conditions, so your devices stay online and your teams stay productive.

Accidental Drops

Built to stay functional after real-life drops—a 24-inch free-fall* and 2,000 micro-drops*.

Durable hinges

Hinges are cycle-tested 20,000 times* so the screen opens and closes perfectly, day after day.

Yanks and pulls

Modular USB-C ports are stress-tested with 9 kg of force over 400 cycles* to withstand heavy pulls and everyday impacts with unmatched durability.

Spill-resistant

Spill-tested to handle up to 3.4 fl. Oz* so you're covered for everyday "oops" moments.

Heat and humidity

Designed to withstand high humidity and short-term heat up to 65°C (149°F)*, ensuring durability in a hot car or on a factory floor.

Weighted loads

Built to handle point pressure—tested with 20 kg. of high-force weighted shock* to withstand a hard object pressing into the lid in your bag.

1. Payment solutions provided and serviced by Dell Financial Services L.L.C. or its affiliate or designee ("DFS") for qualified customers. Offers may not be available or may vary in certain countries. Where available offers may be changed without notice and are subject to product availability, applicable law, credit approval, documentation provided by and acceptable to DFS and may be subject to minimum transaction size. Offers not available for personal, family or household
2. use. Dell Technologies and the Dell Technologies logo are trademarks of Dell Inc. Restrictions and additional requirements may apply to transactions with governmental or public entities. At the end of the contract, the customer may renew the contract or return the equipment to DFS.
3. Dell Technologies has recovered 2.8 billion pounds of electronics since 2007. Source: Based on Dell internal analysis of publicly available data, April 2023.
4. Based on a Forrester Total Economic Impact™ Study Commissioned by Dell Technologies and AMD, "The Total Economic Impact™ Of Dell Premier," February 2024. Full study: The Total Economic Impact™ of Dell Premier.

Product Disclaimers:

1. Offering may vary by country, hardware configuration, and/or operating system.
2. Glass Fiber Composite is made of polycarbonate (thermoplastic) with Glass Fiber reinforcement. PC+ABS is a blend of two thermoplastics - polycarbonate (PC) and acrylonitrile butadiene styrene (ABS).
3. Copilot+ PC comes with a high-performance NPU (40+ TOPS) designed to run advanced AI experiences locally and more efficiently.
4. High-Efficiency Video Coding (HEVC) content playback on the system and on an external display as well as HEVC content streaming is supported on configurations with a discrete graphics card, built in 4K panel, Dolby Vision or CyberLink Blue-ray player; for other configurations HEVC content playback on the system will require a separate purchase and download of software HEVC codec or third-party media players.
5. GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less than stated.
6. Wi-Fi 7 requires the latest Wi-Fi Alliance certification, certified device driver, hardware update, supported OS version and compatible router. Router requires a separate purchase. Wi-Fi connectivity is only available in select locations. Check availability with your service provider. The Bluetooth wireless card version may vary depending on the operating system that is installed on your computer.
7. Mobile Broadband antenna and module available only at time of system purchase. Mobile Broadband subject to service provider's broadband subscription and coverage area; additional charges apply. eSim technology subject to regional carrier/service provider availability & service provider's data plan subscription; additional charges apply. Check availability with your service provider.
8. The stated Watt Hour (Wh) is not an indication of battery life. Express Charge (EC) enables quick battery charging 0-80% capacity in 60 minutes. Express Charge Boost (ECB) enables quick battery charging to 0-35% capacity in 20 minutes. Charging patterns for EC and ECB are measured for the system in a shutdown state. Long life cycle battery options have a charging pattern that enables longer life. Long-life cycle battery options are capable of 3 years life or 1000 discharge/charge cycles, and Dell provides a 3-year limited hardware warranty for these battery options.
9. Limited Hardware Warranty: For copy of Limited Hardware Warranty, write Dell USA LP, Attn: Warranties, One Dell Way, Round Rock, TX 78682 or see www.dell.com/warranty.
10. 45 Wh battery requires at least a 65W power adapter for Express Charge and Express Charge Boost.
11. 57 Wh battery requires at least a 65W power adapter for Express Charge and 100 W adapter for Express Charge Boost.
12. 70 Wh battery requires at least a 100W power adapter for Express Charge and Express Charge Boost.
13. Quantum-resistant BIOS verification, signing updates and embedded controller help protect commercial PCs against current and emerging cryptographic threats.
14. Chassis Intrusion Switch remotely detects hardware tampering and is integrated with Dell SafeBIOS Indicators of Attack.
15. Height may vary depending on configuration. Height (max) represents the maximum system thickness excluding the system rubber feet.
16. Weights vary depending on configuration and manufacturing variability.
17. Power Adapter and Cable can be opted out in EMEA and APJ regions.
